

ALEX MORGAN (B.Sc. Computer Science)

Senior E-Commerce & Backend Developer · Shopware 6, PHP 8 & Symfony · Pimcore & APIs

Senior Backend & E-Commerce Developer with 5+ years of experience building complex shop architectures and enterprise integrations. Deep expertise in custom Shopware 6 plugin development (DAL, Flow Builder, Scheduled Tasks), Symfony, PHP 8+, and Pimcore PIM/ERP synchronization. Proven track record in high-concurrency database modeling, Redis caching, Docker, and automated CI/CD pipelines. 100% remote resident in Germany.

WORK EXPERIENCE

SOFTWARE DEVELOPER · CLOUDCOMMERCE SOLUTIONS GMBH (HYBRID)

Apr 2024 – Present

- Enterprise Architecture – Built **Shopware** plugins and async **Pimcore** sync via **Symfony Messenger**, **OpenSearch** & **Redis**.
- Enterprise Software Development – Built Vue.js / Inertia.js / Laravel solutions for 13 enterprise shops; reduced database query time by 40% via **Redis** caching and optimized Eloquent relationships.
- CI/CD & Docker – Containerised Laravel/Vue apps with **Docker**; set up **GitHub Actions** pipelines for automated, clean deployments.
- Performance Optimization – Cut page load time by 15 s by resolving N+1 query chains in Laravel and offloading report generation to queued background jobs.
- Clean Code & Feature Development – Built custom packages with GraphQL and Inertia.js, optimizing existing code by over 60%.

FULL STACK DEVELOPER – INNOTECH AGENCY (HYBRID)

Jul 2022 – Sep 2023

- Frontend Development – Developed interactive UIs and scalable enterprise-web applications using React.js, Next.js, and Redux.
- Backend Development – Built backend components and REST APIs with Yii2 and PHP, following Clean Code guidelines.
- UI/UX Implementation – Translated Figma designs into responsive interfaces using HTML, CSS, Tailwind CSS, Material UI, and design systems.
- API Integration – Connected frontend components to distributed REST based backend systems (REST APIs, JSON, SQL, Postman).
- Internship (April '22 – Sep '22) – Gained hands-on experience with JavaScript, React.js, HTML, CSS, and Bootstrap.

SELECTED FREELANCE & PERSONAL PROJECTS (PART-TIME · REMOTE)

May 2020 – Present

- AI & Agentic Coding – Engineered multi agent workflows (**Claude Code**, **Codex**, **Antigravity**) and custom **MCP tools** for accelerated full-stack delivery.
- CI/CD Pipeline – Containerised Laravel/Vue apps with **Docker** and automated deployments via **GitHub Actions**, enabling clean continuous delivery.
- Fullstack Platforms – Built **Laravel / Vue.js / Inertia** apps with automated **Stripe Connect** onboarding and payout pipelines.
- Infrastructure & DevOps – Managed self-hosted Linux infrastructure (Uberspace) including email, database management, backups, and hosting maintenance.
- Mentoring & Code Reviews – Conducted structured code reviews, promoted Clean Code standards, and mentored developers in Python and TypeScript.

TECHNICAL SKILLS

Storefront & UI Customization (Primary)

- Shopware Storefront, Twig & Vue.js** · Kundenspezifische CMS-Elemente, Administration-Module & Storefront Theme Customization

- Moderne Webstandards, HTML5, CSS3, Tailwind CSS & Core Web Vitals 95+ · Responsive Layouts & Performance-Optimierung

E-Commerce, Backend & APIs (Primary)

- **Shopware 6 & Symfony** · Custom Plugin-Entwicklung, Data Abstraction Layer (DAL), Custom Entities & Flow Builder
- Pimcore PIM/DAM & ERP Synchronisation via asynchrone Messenger Queues, Webhooks & REST Schnittstellen
- Datenbank-Design & Performance: MySQL 8, Index-Optimierung, N+1 Query-Vermeidung & Redis Caching
- PHP 8+, Laravel & Clean Architecture · Automatisierte Unit- und Integrationstests mit PHPUnit

DevOps, Container & Automation

- Docker Containerisierung & Docker Compose für lokale Shopware-Entwicklung und Staging-Umgebungen
- CI/CD Pipelines mit GitHub Actions & GitLab CI · Automatisierte Code-Quality-Checks, Linter & Build-Pipelines
- Linux Serveradministration (Nginx, Apache, PHP-FPM, TLS-Zertifikate, Backup-Strategien)
- Entwicklung eigener MCP Tools (Model Context Protocol) & KI-unterstützte Coding-Workflows (Claude Code, Cursor)
- Agile Softwareentwicklung, GitFlow, strukturierte Code Reviews & Versionskontrolle

Further Technologies & Background

- Node.js, TypeScript & Python Scripting · Asynchrone Job-Queues (RabbitMQ) & Elasticsearch / OpenSearch
- B.Sc. Informatik (ZAB-zertifizierte Bachelor-Gleichwertigkeit) · 100% Remote deutschlandweit verfügbar

EDUCATION & QUALIFICATIONS

Bachelor of Science (B.Sc.) in Computer Science - Final Grade: 1.7 (With Distinction)

Focused on software engineering, object-oriented design, distributed systems, algorithms, and database architecture.

Academic Achievements

- Dean’s Honor List – Academic excellence award for top percentile students
- Specialized coursework in Software Architecture, Distributed Systems, and Cloud-Native Platforms

Certifications & Professional Development
